Dear Sir:

Amoco Barge Dock Operating Permit

On October 26, 1982 we received a renewed operating permit for the Amoco Oil Company barge loading/unloading operations at our Wood River terminal, 335 South Old St. Louis Road, Wood River, Illinois.

A recent inspection of the Wood River facility by a member of your department indicates the I.D. number for this permit was incorrect in that it was referenced to the Amoco Petroleum Additives Company manufacturing facility rather than the Amoco Oil Company marketing terminal operations.

Please change the I.D. number for this permit from 119115 AAA to 119115 AAY.

Very truly yours,

W. L. Stroud
